

Sinclair's showing of Stolen Honor so close to the election is a blatant attempt to influence the election outcome. Showing something so one sided cannot possibly be in the public interest, which they are required by law to serve if they are using public airwaves. This is also a clear example of the danger of a media conglomerate misusing their power, and of why we need more voices in the media, not fewer, and stronger media ownership rules that prevent this kind of media consolidation.

Please carefully review Sinclair before you renew their license, and please stop them from showing this anti-Kerry film which they are calling "news" in a blatant abuse of what constitutes news. If they are going to show this, they need to give equal time to a pro-Kerry film, or an anti-Bush film.
